Sucre Entrepreneurial System (SES)

Sucre Boosts Its Innovation Ecosystem with Over Twenty Activities for Global Entrepreneurship Week 2026

Sucre, November 2026.– Aiming to strengthen entrepreneurial culture, promote technological innovation, and connect the public, academic, and private sectors, the **Sucre Entrepreneurial System (SES)** and the **Autonomous Municipal Government of Sucre (GAMS)**—through its Municipal Secretariat of Economic Development (SMDE)—are rolling out the official agenda for **Global Entrepreneurship Week (GEW) 2026** throughout the month of November.

The schedule, which officially kicked off on Tuesday, November 3, with a launch ceremony at Casa de la Libertad, comprises **22 activities across 17 dates** through November 30. The program brings together universities, business chambers, business accelerators, financial institutions, and international cooperation agencies to benefit entrepreneurs, students, and youth across the capital.

Key Pillars of the Agenda

- **Training and Business Skills:** Features specialized workshops on marketing and digital marketing (November 5 and 6), entrepreneurial education (November 9), and a Triple Impact training series organized alongside FUREVER and UPDS (November 16 and 25).
- **Acceleration and Access to Financing:** Highlights include the presentation and business plan defenses of the T'ikariy Accelerator (November 9 and 10), the launch of the Punto Emprende Accelerator at CAINCO Chuquisaca (November 11), the Entrepreneur Banking and Prototype Fair with BDP, IPTK, and USFX (November 14), the seed capital pitch defense with Manq'a youth (November 19), and the disbursement of the Centro Juana Azurduy acceleration fund (November 30).
- **Technological Innovation and Networking:** The agenda incorporates global competitions such as the *NASA Space Apps Challenge Sucre* (November 14 and 15 at CEPI), alongside strategic networking spaces like *Startup Huddle* (November 12) and *Emprende Fest* (November 16).
- **Fairs, Community Integration, and Awards:** The program includes open community events such as the *"Trees for My City"* footrace and the FIDEM Inter-Faculty Fair (November 8), the *Warmi Parlana* forum (November 24), and the **SES Awards and Recognition Gala** on Friday, November 27, at CAINCO, closing the month with the CERPI Lab technical certification on November 30.

Through this coordinated agenda within the global GEW network, Sucre consolidates an inter-institutional framework designed to energize local economic development, foster sustainable businesses, and showcase the region's entrepreneurial talent.
